

OEC Connector IFB

Addendum A 4/10/23

- 1. Please confirm whether the bridges are 20' and whether they require handrails or timber curbs.**

Both bridges on the OEC Connector Trail are 20' and require handrails. The bridges must be constructed to the specifications detailed in the IFB.

- 2. Will you consider an extension of the contract term to one year from the signing of the contract?**

Yes, we would consider an extension of the contract term to one year

- 3. Please confirm all insurance policies a-e on page 8 of the IFB are required for this scope of work.**

The insurance policies a-e on page 8 as outlined in the IFB are required for this scope of work.

- 4. Does the 8600' estimated distance measurement include sections that have been partially constructed by volunteers?**

Yes, estimated distance measurement includes sections that have been partially constructed by volunteers

- 5. What difficulty column in the MPS Trail Spec Matrix do you envision this trail to fall under?**

More Difficult (blue)

- 6. Can we stay past the 14 days at the campground?**

Yes, but this must be arranged in advance, and the campsite location may need to change

- 7. Can you share the info on the DBA wood supplier you spoke of at the site visit?**

Suppliers can be found here: <https://marylandmdbe.mdbecert.com/>
